**Endorsement wordings attaching to and forming part of Policy: SD19507/PC/20741**

**L5 BURNING AND WELDING WARRANTY**

The **Insured** hereby warrants that the following special precautions will be complied with on each occasion in relation to any of the following work and that in relation to the following work no work shall be carried out unless specifically authorized by the occupier of the premises at which the work is to be undertaken and that the occupier shall specifically approve the following safety arrangements

- (a) Work involving any blow lamp, blow torch, flame gun or hot air gun or work involving electric gas or other welding cutting or portable grinding equipment
  - (i) The area in which work is to be carried out (including adjoining shafts or openings and the area the other side of any wall or partition) is to be inspected to establish whether any combustible material (other than the **Property** to be worked upon) is in danger of ignition either directly or by conduction of heat
  - (ii) Wherever practicable all combustible material is to be removed to a distance of not less than 10 metres from the point of work and such material which cannot be removed is to be covered by overlapping sheets of non-combustible material or afforded equivalent protection
  - (iii) Suitable fire extinguishing appliances are to be kept available for immediate use at the point of work
  - (iv) All burning equipment is to be lit and used in strict accordance with the manufacturer's instructions not left unattended when lit and extinguished immediately after use
  - (v) Hot air guns are to be switched off when unattended and immediately after use
  - (vi) All portable grinders are to be switched on and used in strict accordance with the manufacturers instructions, and switched off when unattended and immediately after use
  - (vii) A person who is competent in the use of fire extinguishing appliances is to be appointed to act as a firewatcher in conjunction with the operative using the equipment and to remain in attendance until use of all such equipment has ceased and all torches have been extinguished and all portable grinders switched off
  - (viii) Wherever practicable gas cylinders not in use are to be kept outside the building in which the work is taking place or otherwise kept at least 15 metres from the point of work
  - (ix) A continuous check that there is no fire or risk of fire is to be made in the vicinity of the point of work and immediately following completion of each period of work a thorough check that there is no fire or risk of fire is to be made of the whole area in which the work is to be carried out (including adjoining shafts or openings and the area on the other side of any wall or partition) and a further check is to be made not less than 30 minutes immediately following the completion of each period of work A suitable **Employee** is to be responsible for fire safety for each period of work
- (b) Work involving asphalt or bitumen tar boilers:
  - (i) Regulation spill trays are to be used

- (ii) All tar boilers are to be kept wholly at ground level
- (iii) The equipment and work is not to be left unattended at any time whilst in use
- (iv) Suitable fire extinguishing appliances are to be kept available for immediate use at the point of work
- (v) Immediately following completion of each period of work, a thorough check that there is no fire or risk of fire is to be made of the whole area in which the work is to be carried out (including adjoining shafts or openings and the area on the other side of any wall or partition)
